I have always recommended the Faber polygrade lead pencils as the only pencils fitted for both ornamental and mathematical drawing; but after a thorough trial of the American Polygrape Lead Pencils, a anufactured by the AMERICAN LEAD PENCIL CO., N. Y. I find them superior to any pencil in use, even to the Faber or the eld English Cumberland lead pencil, being a superior pencil for sketching, ornamental and mechanical drawing, and all the ordinary uses of a lead pencil.

These pencils are very finely graded and have a very smooth lead; even the softest pencils hold the point well; they are all that can be desired in a pencil. It gives me great pleasure to be able to assure Americans that they will no longer be compelled to depend upon Germany or any other foreign market for pencils.

HAVING NOTICED AN ARTICLE IN the papers over the signature of Adolphus Lotze, stating that it was not the Furnace of his manufacture that set fire to the Third Presbyterian Church on Seventh street, below Linn, recently,

but the one manufactured by Mr. M., in justice to Mr. Martin, we would state that the fire did not originate from any defect of his Furnace, but from other causes. Two years since we removed one of Mr. Lotze's Furnases and put one of Mr. Martin's in the place of it, which has been in constant use and gives entire satisfaction. We can cheerfully recommend it to the public. JOHN H. JOUVET, FRANCIS TERRY. JOHN R. DAVEY, A. H. HINKLE, D. A. MITCHELL, J. B. KING.
